### Registration Prices:

ORAL PRESENTATION	\$249
DELEGATE OR LISTENER	\$199
E-POSTER PRESENTATION	\$129
STUDENT DELEGATE	\$99

### About Webinar:

Material Science and Nanotechnology Virtual Conference 2021 occurring during **October 25-26, 2021** has been covered with numerous logical tracks where sharing the information is simply not our point, it additionally centres around uniting everybody, where you can associate with the experts, teachers, researchers and youthful researchers who has a similar subject matter. Due to the travel limitations and lockdown, to save your time, join our virtual conference and explore your research

### About Organizer:

Auragen Group began to address the problem and sought to clarify the overall goal of scientific researchers centered in the field of science and innovation to support the exchange of ideas and information, also to encourage coordinated collaborations among researchers, academicians, and scientists in the same field. Use our foundation to improve your skills, share your assessments, suggestions and experiences; establish contacts with your fellow researchers and scientists, and have some increasingly important conversations. We may perform subjective data and information through our meetings for our current and upcoming ages. Here are a few key points that you will seek clearly during the meeting

- Get feedback on an early form of your most recent work
- Became more acquainted with others in your field
- Perceive the most recent research
- Improve your presentation and communication abilities
- Visit another place and have a ton of fun
- Meet your scholarly legends
- Participate in significant level discussions and refine your thoughts
- You can add your experience to your CV

### Submit Abstract:
